Summary: A sort of tragic love story between Shelly, Brad and IQ. Tracy isn't part of the council yet, so Negro day still exsists.

Unfaithful

This is just an introduction to the story I might write

This is just an introduction to the story I might write. Please comment if you want me to keep writing it! But be nice, this is only my second story!

Introduction

I can't even remember when it started.

I mean, we were the perfect couple. I can't believe how much he's changed recently. Or maybe it's me that's changed.

Brad and I have always gotten on well. Until recently.

It's like something was always wrong from the start, I just hadn't realised until a couple of months ago.

There was never really anything between us; I just wanted to believe that there was.

But the worst part is that he actually feels that there _is_ something between us. Unfortunately, it's just a one-way feeling.

And now, looking back on our photo album, it's almost unbearable. I can't believe how much I miss the guy I thought he was.

In my heart, there's still a little bit of me that loves him. But the rest of my heart is completely devoted to someone else.

It's just too much for me to handle. I don't have any tears left.

My secret's going to be found out soon. I can't hide it anymore. I mean, they're both _always _with me. We go to school together, go on the show together and then afterwards we hang out together.

Brad honestly doesn't have a clue of what's going on. And IQ thinks I've dumped Brad. So both of them think that they're with me. Why did I have to let it get this far?

But the thing is; now I'm so in love with IQ. And if he finds out that I'm still with Brad, than he'll hate me. So will Brad.

So now I just have to carry on as normal and wait until one of them finds out. It won't make a difference which one of them does find out; either way, I'll lose IQ, the love of my life. But even if I didn't lose him, I wouldn't be able to live with him knowing what I did to Brad.

And now there's nothing I can do to stop my heart breaking; it's already broken.

End
file.
